

CATÁLOGO

DECKS NATURALES

A photograph of a modern building's exterior featuring a large, multi-level wooden deck made of ipe wood. The deck is composed of horizontal planks with a natural wood grain. The building has large glass windows and a white structural column. The scene is set outdoors with a large tree on the left and lush greenery in the background under a clear sky.

DECK DE IPE

Ancho: 19 mm

Largo: 0.90 m a 4 m

DECK DE TECA

A high-angle, close-up photograph of a wooden deck. The deck is constructed from light-colored wooden planks, likely teak, arranged in a parallel pattern. A concrete curb runs along the edge of the deck, and a glass railing system is installed on top of it. The railing consists of vertical glass panels held in place by metal brackets and cables. In the background, a green lawn is visible. The text 'DECK DE TECA' is overlaid in the center of the image in a large, white, sans-serif font.
